

SmartBase Solutions Data Warehouse

Your data safely and securely resides in **SmartBase Solutions HITRUST Certified and HIPAA Compliant Managed Hosting Infrastructure**. Your dedicated database will reside on a segmented network on segmented storage on dedicated virtual servers requiring multi-factor authentication and is protected by an extensive backup and recovery solution. The network is protected by Enterprise Level Firewalls, Intrusion Detection Systems, Enterprise Anti-Virus, and Web Application Firewalls. Your data is encrypted while in transit and at rest.
