

# Managed Infrastructure and Data Hosting

Smart People. Smart Data. Smart Hosting.

We are a HITRUST-certified strategic data advisory partner offering flexible solutions which mitigate risk. Whether you need an environment to support a short term development effort or to run your entire business, we can help. SmartBase Solutions can customize an environment in our HITRUST certified and HIPAA compliant infrastructure to support your business and protect your sensitive data.

## Private Cloud Hosting

Secure, HIPAA compliant environments for your sensitive data, applications and integrations.

## Database Hosting

Build a secure customer database specifically designed to meet your needs.

## Office 365 Solutions

We can fully manage or partially manage your business Microsoft Office 365 solutions.

## Backup and Recovery

Get data protection and security for files, applications, and servers for your business.

## Compliance and Security for the Healthcare Industry

If you're in the healthcare industry, you know that keeping protected health information (PHI) is of the utmost importance. Your entire organization benefits from using a private cloud solution that has been designed and built to meet HIPAA Compliance and HITRUST standards to secure PHI. Gain a greater level of security, control, and peace of mind by partnering with SmartBase Solutions.

SmartBase Solutions has been HITRUST CSF Certified since 2017, going beyond HIPAA Compliance, showing our dedication to protecting your sensitive data and keeping up with the evolving standards of the Healthcare Industry.

## We become an extension of your team

Our team will get you up and running quickly without having to wait for hardware provisioning or the availability of internal resources. We become an extension of your team, owning and managing the infrastructure while allowing you to focus on application development and servicing your customers.
